

Breathable Air Cargo Cover

Air cargo covers are used by perishables distributors, 3PLs and airlines worldwide because they offer proven performance with real benefits

Breathable

Our nonwoven breathable membrane reduces the risk of condensation damage by assisting the diffusion of moisture and at the same time acts as a barrier to dirt, rain and snow.

Reflective

Superior protection from solar radiation as a result of their unique reflective outer surface.

Simple

A simple and robust design means there is no complicated training and no return logistics required.

Save Money

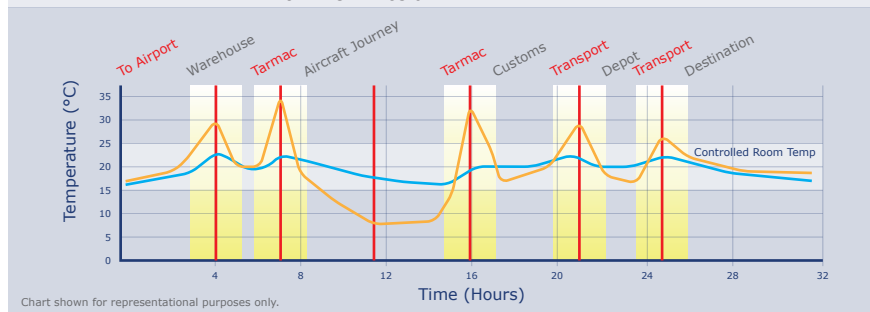

Help improve your bottom line by reducing costs associated with losses, excursion management, secondary packaging and shipping (lightweight thin cover).

Enhanced shipment security

These white, opaque covers shield your cargo from view and are inherently tamper-evident.
